Dear Colleagues and friends in farming

On behalf of Johan, Juan and myself and our respective families, we would like to welcome you all here to our 9th Production Sale. The year has been a tough one generally for us as farmers in that we have been faced with many challenges. The continuance of Covid at the beginning of the year and the uncertainty that surrounded that caused many challenges and saw many of us lose loved ones and close acquaintances. More recently, Foot and Mouth Disease has played havoc with all of us and indeed threatened our livelihoods. There is no doubt that the South African farmer has had to learn to become extremely resilient over the last few years

We would like thank you for sharing the day with us and Johan, Juan and I are proud to show you the animals that we have for this auction. The animals have been screened by inspectors of both the Sussex and Dormer breed societies and have been tested by our vet and declared clinically fit and sound for breeding. Fertility certificates will be posted to you after the sale. The various tests performed on the cattle and rams are highlighted in the catalogue as are the stages of pregnancy together with the relevant inoculations given to date.

We endeavour through this sale not only to provide you with top quality animals but also to provide great after sales service. We firmly believe that the true value that can be added comes through the building of good relationships between ourselves and yourselves. Please therefore do not hesitate to contact us if there are any problems or if you just need a chat about farming in general.

We do deliver the animals to you after the sale however request that you take out the insurance for the transport on the animals that are being brought to you since we cannot take responsibility for this. Please therefore speak to Brian Jacobsen about your insurance needs after the sale and please inform Kenny Moolman of directions to your farm for the delivery of animals.

We trust that you will enjoy the day with us and enjoy meeting new friends. We wish you all the best for a great year ahead and trust that the animals purchased by yourselves will do you proud. We would also like to thank the Sun Down Lodge for hosting this event and also a BIG thanks to our sponsors-they are listed at the beginning of the catalogue. Please do make an effort to support them as they are our partners in Agriculture

Please do join us for a spit braai after the sale, have a couple of drinks and most importantly drive safely home. Once again thank you for your valuable support.

Kind regards

Geoff, Johan and Juan

Logix Genetiese Katalogus

Die Seleksie Waardes in hierdie verslag dui die genetiese meriete van diere aan - alle omgewingsseffekte is uit die waardes verwyder. Seleksie waardes is 'n kombinasie van relevante teelwaardes. Die inligting is gebaseer op diere wat wetenskaplik korrek en presies gemeet is volgens internasionaal aanvaarbare metodes. Teelwaardes word beraam uit verskillende bronne van inligting: voorouers, eie prestasie en nageslag.

Seleksie Waarde	Wat meet dit?	Notas
Koei Waarde	Generiese meriete om dogters te teel wat vrugbaar is, maklik kalf, swaar kalwers speen, baie melk het terwyl onderhoud behoeftes laag is.	Kombinasie van die subwaardes Kalfgemak, Melk, Kalfgroei, Onderhoud en Vrugbaarheid.
Groei Waarde	Bulle / Koeie se genetiese meriete vir groei en groei-doeltreffendheid na speen.	Die diere se genetiese vermoë vir groei in een waarde opgesom.
Produksie Waarde	Kombinasie van Koei waarde en Groei waarde.	Een enkele waarde wat die genetiese van die diere opsom.

Maklike interpretasie van Seleksie Waardes:

- Gemiddeld van lewendige diere in die hele ras: 100
- Bokant 100: meer gewenste rigting
- Onder 100: minder gewenste rigting

Sub Waarde	Wat beteken 'n waarde bo rasgemiddeld (100)?
Kalfgemak	Kleiner kalf by geboorte - makliker kalwing
Melk	Koeie met meer melk en beter moeder eienskappe.
Kalfgroei	Swaarder klaf by speen as gevolg van groeikragtigheid van die kalf self.
Onderhoud	Diere met laer behoeftes vir onderhoud (laer Volwasse gewig EBV's).
Vrugbaarheid	Koeie / dogters wat vroeër en / of meer gereeld kalf.

Ster Gradering	Seleksie Waarde

★★	70-79
★★★	80-89
★★★★	90-99
★★★★★	100-109

Akkuraatheid (Akk):

Die hoeveelheid inligting beskikbaar vir teelwaarde beraming word aangedui met die **akkuraatheid (Akk)**. Hoe nader aan 100, hoe meer inligting.

Jonger diere het laer akkuraatheid as ouer diere.

Inligting wat bevruik word, is 'n kombinasie van die volgende:

- **Ouers:** bekend, akkuraatheid van ouers se teelwaardes.
- **Eie meting:** Dier self gemeet vir eienskap of gemeet vir geneties gekorreleerde eienskap.
- **Nageslag:** Aantal nageslag gemeet vir eienskap of gekorreleerde eienskappe.

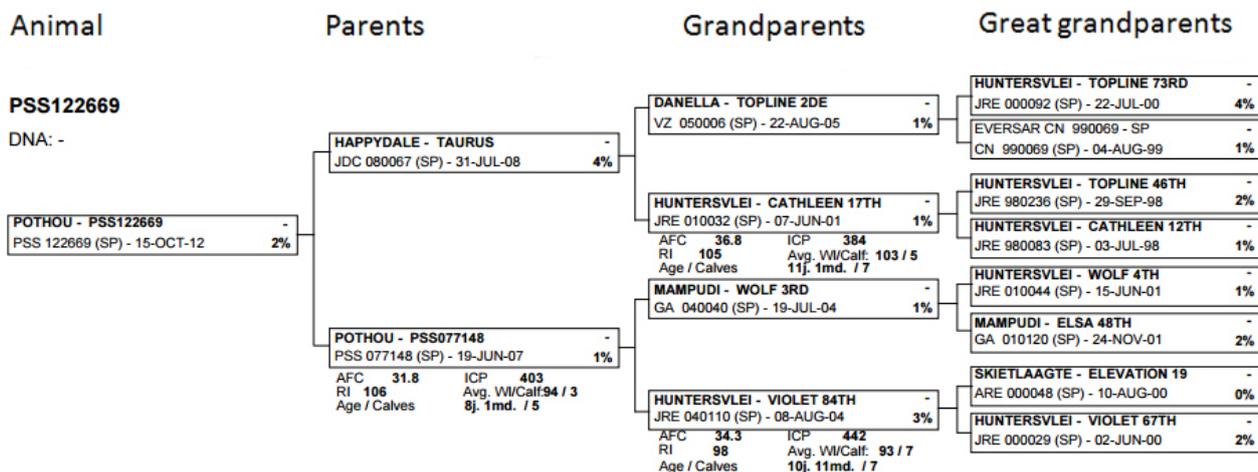

Wye interpretasie van Akk:

- Akk > 80%:** Baie inligting, KI bul, baie nageslag.
- Akk > 60%:** Dier het gemete nageslag.
- Akk > 30%:** Dier gemeet.
- Akk < 30%:** Min inligting.
