NOTE:

- If concessions are made regarding the drying cost of wet grain and the maximum percentage of the concession is exceeded, the applicable tariff will apply as if no concession has been granted. Drying will only be done if the relevant silo has enough capacity to receive the wet grain.
- Net mass determination is done by a moisture adjustment up to 12,5% on maize.
- Maize and Sorghum will only be received on a moisture basis as determined by the maximum allowed moisture percentage for the specific commodity.
- OVK GRAIN cannot be held responsible for claims resulting from insect infestation in shipments transported by rail and on rail for more than two weeks (14 days).

DRYING CONCESSION:

- Free drying on maize up to 16% until 23 June 2023 if aeration facilities and a drying oven are available at the silo.
- This concession will only remain applicable if sufficient capacity is available at a specific silo and also subject to the discretion of the relevant Silo Manager.
- When the concession is no longer applicable, the normal published rates from 14,1% will apply.
- Drying cost can increase in accordance with the fuel price and will be communicated well in advance.
